## PROFILE

### PROFESSIONAL SUMMARY

Dynamic Software Engineering student and Full Stack Developer with over a year of professional experience in building scalable web applications. Proficient in the **Django-React stack** with a growing focus on integrating **Machine Learning** into functional software. Proven track record of balancing academic rigor with professional roles at Nexus Events and Aksharaa School. Passionate about UI/UX polish and data-driven development.

## SKILLS

### Backend:

- Python, Django, REST APIs, PostgreSQL.

### Frontend:

- React.js, HTML5, CSS3, JavaScript (ES6+), TypeScript, Tailwind CSS.

### AI/ML(In Progress):

- Data Analysis, Model Implementation, Scikit-Learn.

### Design & Tools:

- UI/UX Design (Figma), Graphic Design, Git/GitHub, Data Entry & Analysis, Docker, Vercel

### Languages:

- English (Fluent), Nepali (Native), Hindi (Fluent).

## PROFESSIONAL EXPERIENCE

### Full Stack Developer | Nexus Events And IT Solutions

04/2024 – 04/2025

- Engineered and maintained web platforms using React.js and Django to streamline event management workflows.
- Collaborated with design teams to translate UI/UX wireframes into responsive, high-performance code.
- Optimized database queries, improving site load times by implementing efficient backend logic.

Kathmandu, Nepal

### Full Stack Developer Intern | Nexus Events Prior to Full-Time Role

01/2024 – 03/2024

- Assisted in the development of core features for client-facing dashboards.
- Debugged and resolved front-end rendering issues across multiple browsers.

Kathmandu, Nepal

### IT Administration Assistant (Intern) |

06/2025 – 09/2025

- Managed network infrastructure and provided technical support for school-wide administrative systems.
- Streamlined digital data entry processes, ensuring 100% accuracy for student and staff records.

Kathmandu, Nepal

## PROJECTS

### Election Awareness Nepal

[https://election-awareness-nepal-cl79sl17d-anishs-projects-cd54f7d8.vercel.app?](https://election-awareness-nepal-cl79sl17d-anishs-projects-cd54f7d8.vercel.app?_vercel_share=AziezfbD7XpF5llTgrHDz8GpGqgpW6BF)

[\\_vercel\\_share=AziezfbD7XpF5llTgrHDz8GpGqgpW6BF](#)

Educate: Raise Election Awareness

The first step is ensuring your audience has the facts they need to participate.

- Voter Requirements:** Clear, simplified guides on who can vote, how to register, and important deadlines.
- Candidate Profiles:** Unbiased breakdowns of candidates' platforms, past voting records, and key endorsements.
- Election Timelines:** A visual countdown or calendar for primary and general election dates.

- **Polling Locators:** Interactive tools to help users find their nearest voting station.

### **Hospital Management System | Lead Developer**

*hhs-hospital-management-system.vercel.app*

- Developing a comprehensive system to manage patient records, doctor schedules, and staff handling using Django.
- **Goal:** Integrating an AI-based diagnostic assistant to help prioritize urgent cases.

### **School Management System | Lead Developer**

*Link: <https://github.com/anishupr47-git/School-Management-System>*

- Building a multi-user platform for attendance, grading, and parent-teacher communication.
- Focusing on a clean, intuitive UI/UX to ensure accessibility for non-technical users.

### **Personal Portfolio Website | Completed**

*Link: <https://anish-portfolio-git-main-anishs-projects-cd54f7d8.vercel.app>*

- Designed a custom portfolio to showcase projects and technical progress.

## **AWARDS**

---

**Winner: NCIT Tech Fest – Graphic Design Competition.**

**Data Analysis:** Utilized free-time data entry projects to build datasets for future Machine Learning training models.

## **INTERESTS**

---

Tech: Exploring the intersection of Full Stack Web Dev and AI. |

Sports: Football (Team dynamics and strategy). |

Creative: Cooking and Presenting complex technical ideas to non-technical audiences.

## **REFERENCES**

---

Available upon request (Permission pending).

## **EDUCATION**

---

**Bachelors In Software Engineering**

*Nepal College Of Information Technology*

11/2025 – 11/2029

Kathmandu, Nepal
